

Donald K. Hall is captivated by Hawaii, its beauty, it's energy and its people. "Hawaii is magnificent; every corner is splashed with color and majestic beauty."

Don has been painting professionally since 1982; He has studied with the late water colorist Zoltan Szabo and Tom Lynch. Born in Ottawa, Canada, Don now resides in Hawaii and is a U. S. Citizen. His work signed D. Hall, is collected internationally. It is very popular among those who like to see beauty directly, without the need for further explanation.

Don is also an accomplished sculptor, jewelry designer, gold and silversmith. He was owner of Diana Creations Ltd., a chain of jewelry stores, featuring his original designs. The company was named in honor of Don's wife Diane. Arthritis has taken the ability to sculpt and work with metal away from him: however, with the encouragement and inspiration of his wife of over 39 years, Don now concentrates on his painting and teaching.

"The rhythm of life has a powerful beat. In today's fast pace of life it's important that we take the extra time to share the beauty of the world. It's incredibly fulfilling to do, what I feel, I came to this Earth to do, and have the ability to share this beauty with you. Aloha."

A special thanks to Lucile Hall my Sister In-Law for editing this Book. She helped make it look Professional.
